

# Surf On-The-Go

## The Ultimate Travel Router

**PEPWAVE**  
Broadband Possibilities

Works with

**4G** **3G**

Unlimited Wi-Fi connections. Multiple profiles. Extended-range radio performance. All from a single device that fits in the palm of your hand. The Pepwave Surf On-The-Go packs incredible networking power into a space-saving package that goes wherever you go.

### Introducing the Swiss Army Knife of Mobile Web Access.

Featuring an array of advanced connectivity options, the Pepwave Surf On-The-Go is one powerful little solution for multi-device, multi-user, on-the-road wireless connectivity. Use it as a Wi-Fi repeater to expand coverage over a wider area. Connect your 4G/3G modem and use the Surf On-The-Go as a travel router. Make wired devices, such as printers, play nice with wireless networks. And share a single paid Wi-Fi connection among your laptop, tablet, and smartphone. With the Surf On-The-Go, you get all the mobile connectivity tools you need in one easy-to-carry, simple-to-use device.

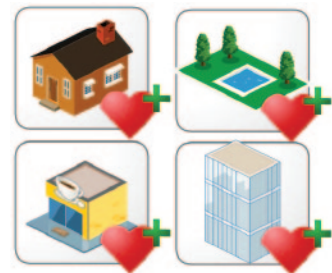

### Why Look for a Hotspot when You Can Bring Your Own?

Whether you're in the center of everything or the middle of nowhere, hotspots never seem to be available when you need them. But with a 4G/3G modem and the Pepwave Surf On-The-Go, you can create your own hotspot wherever you are, even in a moving vehicle. The Surf On-The-Go lets you wirelessly share your mobile high-speed connection, too, so be prepared: when other wired or wireless connections fail, you might just become everyone's new best friend.

### Forget about Profiles and Settings. Surf On-The-Go Remembers.

SSIDs. Passwords. Profiles. They're tough to remember and inconvenient to set up, especially when you're traveling with multiple devices and visiting multiple locations. Whether you travel once in a while or frequently, the Surf On-The-Go keeps all your login details in mind, freeing you to concentrate on what's important. You can even set up favorite locations and switch between them in a flash, putting you online and in business more quickly and easily than ever.

### The Internet. Now Available in Pocket-Size.

Small enough to comfortably slip into a jacket pocket, the Pepwave Surf On-The-Go packs a lot of performance into its 3.7-inch x 3.6-inch (9.4 cm x 9 cm) frame. From a specially designed antenna that puts even distant Wi-Fi networks within reach to connectivity for an unlimited number of wireless devices, everything about the Surf On-The-Go says "big." Except the size. Did we mention that the Surf On-The-Go is small?

## Specifications

Surf On-The-Go	
Product Code	SUS-AGN1
Interface	Fast Ethernet Port 802.11a/b/g/n Wi-Fi USB
Wi-Fi Operating Frequency	2412 - 2462 MHz / 5180 - 5825MHz
Antenna	5dBi Dual-band Omni Antenna
Antenna Connector	RP-SMA Connector
Security	802.1x, 64/128-bit WEP, WPA, WPA2, 802.11i
Power Input	AC Adapter: AC Input 100 - 240V / DC Output 12V
Power Consumption	5W (max.)
Weight	95g / 0.21lb
Operating Temperature	-20° - 65°C / -4° - 149°F
Humidity	15% - 95% (non-condensing)
Certifications	FCC, CE, RoHS
Warranty	1-Year Limited Warranty

Switch between Wi-Fi WAN, Cellular WAN, and Wired WAN easily with the Surf On-The-Go Web Admin Interface Dashboard.
